- 3. Connect your phone/device to the WiFi you would like to connect the Chill Pill to and turn on Bluetooth connections
- 4. Plug your Chill Pill in and allow for the system to turn on.
 - a. Once on, hold down the "Function" and "Up Key" to turn on the Wifi connect

i. Look for this to start blinking

Icon	Name	Light on representative
0	Auto	Automatic temperature regulation
*	Refrigeration	Cooling in progress
*	Heating	Heating in progress
ATA 000	Defrost	Defrosting
0	Fault	out of order
()-	Wireless connection	Connected to the Internet

Icon	Name	Description
٢	Run key	Press once to stop or turn on the machine
$\overline{\bigcirc}$	Down key	Used to adjust parameters downward
	Up key	Used to adjust parameters upward
J	Timing key	For time setting
۲	Function key	Mode switch, tap the "Function" key to switch the heating - auto - cooling mode.

5. Open the Smart Life App and "Add Device"

2		0 🕂	<		Add D	evice	5-1

6. Once "add device" is selected the Smart Life App will automatically search for nearby devices. Click on the "Heatpump – Fix" Once installed you will see a note below that reads:

"Added Successfully" and a green check mark will appear.

a. If the app does not find the device try these steps:

Large Home Appliances

- i. Ensure the Wifi is blinking from step 4. If not power cycle the unit by unplugging it from the wall for 15 seconds for the set up to clear and start over
- ii. Manually add the device using the drop down below:

	Addi	Device		<	Add I	Device
	Add M	anually	- 1	Electrical	:	:
